

W-6111 Universal Dispersant for Water and Oil

Composition: polymer compounds

Appearance: light yellow transparent liquid

Active ingredient: 100%

Application scope: water-based paint, water-based ink, solvent-based paint;

Recommended dosage: inorganic pigment: 1.0-5.0%; organic pigment: 10-25%; carbon black: 30-100%.

In order to get the full effect, please test the proper dosage before use.

Characteristics and advantages:

- 1、 It has good affinity to resin, strong coating to carbon black, preventing carbon black from anti-coarsening and shortening grinding time.
- 2、 Improve the fluidity of pigment and filler powder, reduce water consumption, and can be processed into high solid slurry.
- 3、 It can reduce the viscosity of pigment and stabilize the viscosity of dispersed slurry in the process of dispersing and milling, and prevent from settling and returning to coarse;

Package: 25KG non-recycled blue plastic drum.

Before the product is not completely empty, the lid should be tightened after use.

Storage: Keep it away from heat and light source and keep it away from light.

Note: Please carefully evaluate the specific dosage in the coating system before use.

The above information is based on the product, due to the producer's formula, production process, construction conditions are different, the above statement is for reference only.

We do not assume any legal responsibility. Please test the dosage before use.
